Filter Claims Process

How to file, complete, and get paid on a Mighty filter warranty claim.

START HERE The process starts by communicating with **Ken Stapleton**, our Customer Success Agent. He will complete the process for you — but you must communicate, and you are responsible for gathering the data that's needed below.

STEP 1 Start the Claim

The Franchise sends an email to claims@mightyautoparts.com with the:

- Part Number
- Manufacturer (if known)
- Country of Origin
- Date Code
- Description of the alleged defect
- Photos of all sides of the filter

You will receive an emailed response with your **Claim Number** and **Claim Form**.

STEP 2 Complete the Claim

Reply to the email with the:

- Completed Claim Form
- All supporting documentation and/or receipts

Upon receipt, you will get shipping instructions for the filter. **Ship the filter ASAP** to avoid delays in proceeding with the claim.

These steps must be completed before the payment process can begin.

The Payment Process MDSA = Mighty Distributing System of America

	Up to \$1,000	\$1,001 – \$10,000 *Filter must be returned for testing*	Over \$10,000 *Filter must be returned for testing*
The Franchise will...	...issue the warranty credit to the customer.	...issue the warranty credit to the customer.	Nothing happens until the filter and claim are reviewed by the manufacturer.
MDSA will...	...credit the Franchise after the claim is accepted by the manufacturer.	...credit the Franchise as soon as the claim is filed, documentation is received, and the filter is shipped.	
Filter IS defective	Franchise will receive credit after the claim is accepted by the manufacturer.	MDSA will receive credit. No further action required by the Franchise.	Manufacturer credits MDSA → MDSA credits the Franchise → Franchise credits the customer.
Filter IS NOT defective	Franchise will not receive reimbursement.	MDSA will expense the claim and will not rebill the Franchise.	Resolution is entirely at the Franchise's discretion.

You will receive a claim report after the filter defect testing is complete.
